Discuss the challenges facing businesses in the tertiary (services) sector in Ireland. (15m)

Make sure your information is up to date and not outdated information from old marking schemes / notes

2018 ABQ (A)

The Celtic Greenway

In 2015, The Celtic Greenway, a 30 km traffic-free cycling and walking trail built along a disused railway line was officially opened. The Greenway project was the work of a group of residents from villages and towns who wanted to develop it as a community amenity. The Greenway connects towns, villages and places of natural interest. A significant amount of funding was provided by local government. The construction of the route was carried out by a local building company over 3 years.

The provision of this safe and attractive walking and cycling route has encouraged a huge uptake of cycling, walking and jogging among local people. Cycling is increasingly being recognised as a key mode in reducing the environmental impact of transport and in promoting healthier and more balanced ways of life. The Greenway has become a great location for scouts to earn merit badges and complete volunteer projects. It has also attracted overseas visitors to the area which has led to an increase in demand for cafés and accommodation in local hotels and B&Bs along the route.

- (i) Illustrate the economic benefits of The Celtic Greenway to the **secondary sector** and to the **tertiary (services) sector**.
 (ii) Describe **two** social benefits of The Celtic Greenway project.
